## PROPOSED CHANGE IN CLUB MEETING DATE

Several years ago the club used to meet on the second Tues. of each month, but we shifted to the third Tues. when we moved to Rinaldo's Restaurant because another organization met there on the second Tues. As a result, The Bulletin would arrive toward the middle of the following month. This upset many members despite the fact that the riding schedule was set up from the middle of one month to the middle of the next.

It is our expectation that the Artemis management, after the extensive coaching they received from Lorraine Gewirtz, Martha Ramos, and Irv Weisman, will serve us efficiently, and that we decide to keep meeting there. If so, we have the option of meeting the second Tues. of the month. It will then again be possible to have the Bulletin carry late breaking news about cycling, along with reports and decisions made in the previous month (rather than two months previous, as is the case now). It will also enable our Ride Co-ordinators to ferret out last minute rides at the club meetings in time for the very next Bulletin. It will save them some time and phone bills.

So, please pay close attention to the Bulletin announcements of the date and place of the future club meetings in order that you don't miss any changes which may be instituted.

### NOTE FROM THE EDITOR!

AT THE WELL ATTENDED JULY GENERAL MEMBERSHIP MEETING POLLED BY A SHOW OF HANDS, IT WAS MADE CLEAR THAT MOST EVERYBODY FELT GIVING A BREAK FOR THE BOARD MEMBERS STRUGLING WITH DEADLINES. MOVING THE MEETING DATE TO SECOND TUESDAY OF THE MONTH IS NOW IN EFFECT.

### RIDE AND RIDER CLASSIFICATIONS

These classifications are more modest than some other clubs advocate, but my investigations and experience lead me (Irv W.) to conclude that they are proper for our club. Distance is not as significant as is the pace in bringing on fatigue and rubber legs. Newcomers to the club are advised to be modest in their selections at first. They will gradually discover leaders and the pace which is right for them. Rides last 5 - 8 hrs.

A+: ANIMALS:	Anything goes. Eat up the roads, hills and all. No help needed,	17 mph +
A: SPORTS(WO)MEN:	Vigorous riding over hill and dale. High regard for good riding style. Can take care of themselves anywhere.	15mph±1 <sup>1</sup> / <sub>2</sub>
B: TOURISTS:	Moderate to brisk riding along scenic roads, including hills. Rest hourly or so. Can make roadside adjustments & repairs.	12mph ±1 <sup>1</sup> / <sub>2</sub>
C: SIGHTSEERS:	Destination oriented; nature & historical. Do not ride long distances by themselves. Need help with adjustments & repairs.	9mph ±1 <sup>1</sup> / <sub>2</sub>
D: BEGINNERS:	Still discovering the bike and their bodies; sightseers; training up. Do not believe reports about mortals riding 100 miles or more in only one day.	Less than 8mph

EDITORIAL NOTE: THERE BEEN YEARS OF RESEARCH BY SOME OF US THAT INDICATES THE ABOVE APPROACH BEING THE MOST PRACTICAL.

## "A" RIDE SCHEDULE FOR AUGUST

August 2, SYOSSET SATURDAY MORNING QUICKIE, 70 miles, A. Meet 7:30 am at Central Park Boathouse. Ride will go out along the service road of the Long Island Expressway, then through some nice areas on Long Island with a breakfast stop at the Friendly's in Syosset. Return via L.I.E. service road. Bob Friedman (724-4246) leader. Ride may be extended to 90 miles if all in the group agree and leader has time to scout a scenic 20 miles to add to the ride.

August 3, PRINCETON RIDE, 150 miles, A. Meet at 6:00am at Central Park Boathouse. Ride is a rerun of a June ride which was aborted due to weather and flat tires. August 31, MONTREAL RIDE, 400 miles A+ and A. Steve Bauman is organising a group which will complete the ride in 40 hours. Those interested should contact Steve at AYH concerning qualification. Tentative plans are to leave the City on Friday, one day ahead of Steve Bauman and arrive at Montreal simultaneously Sunday night. We shall return with Steve on Monday. If interested, you must call Bill Yao (749-1978) or Chris Mailing (879-6199) before middle of August as it is necessary to make motel reservation in advance due to holiday weekend.

## CYCLING WEEKENDS

- Irene Walter Hanak

We had never been away on a cycling weekend before. Then, over the Memorial Day weekend, we joined 1,700 other cyclists from all over the United States, and Canada, England, the Netherlands, Mexico and Japan, to gather at the site of the founding of the League of American Wheelmen (LAW) in 1880 - Newport, Rhode Island - to celebrate LAW's 100th birthday. The League is the oldest national bicycling organization in the U.S.

Sunday was beautiful - clear and warm - when 1,500 bikes, including tandems, side-by-sides, and antiques, moved out over 20 scenic miles across two bridges to Newport, where a commemorative plaque was presented to the Mayor. This was followed by a parade of antique bikes - "bone shakers" - from which if you fell, you were considered lucky if you landed in the hospital!

Some of us visited the famous mansions on Bellevue Avenue, where there are bathtubs with four faucets - for hot and cold running fresh and salt water - in contrast to the park at which the ceremonies were held, which had absolutely no restrooms!

For the rest of the weekend, there were 20 other rides ranging from 14 to 100 miles available for touring, and after-ride activities, including more than 20 workshops and exhibitors' displays, square dancing, and folk and traditional music.

The cost of the weekend per person including room and board was about \$75. We had bunkbeds (another type of experience!) but I am sure there were other types of rooms, and there was too much food! One morning we almost got chocolate chip pancakes.

Joining other cyclists in beautiful surroundings at rock-bottom prices was a wonderful experience, and addictive: For the July 4th weekend, we went to Millersville State College, Pa. Only a few hundred cyclists this time, but the ambiance was Pennsylvania Dutch country. Again the cost was low - lower than Rhode Island - and the amount of food available gluttonous. I remember seeing someone with four desserts!

8 I think we are hooked on cycling weekends.
