LETTER TO THE EDITOR

Dear Jimmy,

May 13, 1980
12:15 A.M.

WANTED

Girl's 10 speed, 26" wheel, 19" frame
Call: 732-8400 Ext. 3314 Charlotte Hildebrandt

The bulletin looks great these days and the contents are very colorful and interesting. Altogether you're doing a vastly superior job compared to what I did.

Hope to see you at the next general meeting, now that my Tuesday course is over.

Sincerely,
Charlotte

-- and please say "Hello" to Mrs. Rex!

EDITORIAL REPLY.

If it's a new bike you had on mind, best if you check with Margaret Barone or Lorraine Gewirtz to see where they got theirs. But I presume you had a secondhand item on mind, in which case wish you luck.

While the bulletins have improved some, inspite the fact I didn't even knew how I'm going to go about it in the beginning.... It is still not so much as I would have liked, for lack of time.

----

In spite of the above, some people found the content of some articles less than funny. In response to one of them; Mel Shleifer in an attempt to clear his good name of low gear deriliction, has challenged Jim Rex to a 90" gear bike duel up "Cardiac Hill" in Central Park by 110th Street. Also highly recomended that Rex should carry a cinder block as well, to off set some possible lighter bike advantage.

For ordinary readers this sounds like the case of hernia opportunity of the year, but for Rex just another crazy opportunity in years since he broke his cleats and the steel plate bike shoe insert, riding nine nonstop laps in 100" gear.

So, Mel has amended barring the use of cleats, and Rex put the whole thing out of mind until the bike marathon passed.

----

The latest flack on the Board according to Jim Rex comes from his informal complaint, that Members at Large to fill some function should carry the work load required of Ride Co-ordinators instead. Something he has done in the past with Lorraine Gewirtz, as Martha Ramos and Bill Yao do now with Dave Miller. While it was voiced that the Bylaws should be changed accordingly (and no moves had been made to that affect), it is yet breaks no law to follow the Rex recomendation....
Are You Ready For The 80's?

Martha Ramos

On a sensationally bright and cloudless Tuesday April 22nd, New York City celebrated the 10th anniversary of Earth Day. The first Earth Day representing a show of concern on the part of environmental groups and individuals as to how we were using and abusing this precious resource we call the "Earth". This 10th anniversary celebration represented a look at what has been accomplished during the interim and defined where the priorities will be for the future.

A significant addition to this years celebration was the participation in the form of an exhibit by the New York Cycle Club. (Admittedly a parochial point of view). With our colorful sign that contained the message "Fun, Sport, Health", many of the quarter of a million participants stopped to view our exhibit. Some were recent converts to the enjoyment of cycling, many rediscovering the sport due in part to the recent transit strike. I even spoke to a number of long time cyclists who had formerly been members of New York Cycle and were gratified to see the club was still a part of the cycling scene.

Based on the interest and enthusiasm I witnessed (partially due to the transit strike and the immense popularity of the movie "Breaking Away") 1980 will surely be the year of the bicycle. Part of that enthusiasm will be reflected in the increased interest and membership in our club. Therefore if at the next general meeting (at our new location) you notice a number of new faces, it is just an indication of how fast cycling is growing in this always vital and regenerating city.

REX TAILING CHRIS AEL THE WAY TO BOSTON AHEAD OF THE PACK
CYCLING SHORTS

Jim Rex was first to earn the Presidential Sport Award in cycling amid our ranks back in 1973. For 3 years it wen unmatched while he was repeating the task once a year. Now comes Dave Miller long over due; riding 273 days on a commuter basis last year, that earned him 3 in one year. The National record is four times in one year. Good going and congratulation to Dave still....

Our Marathon expansion program went very successfully inspite of unforeseen obstacles, accidents, and casualties. Due to air pollution, pollen allergies, hay fever, runny nose or eyes and inadequate help at team support lacking personnel, we did it!

We were not expected to perform well by any would be winners, so we were regarded as no threat to them. Jim Rex for his many years of participation in the top ten finishers was noticed to be fifth overall 13 hrs into the event after surviving a pile up the first hour that tore up his front wheel. Thus taking the bulk of attention, the other team members were able to rack up the miles with less concern. Before anybody would wise up; we established the team lead; and finished the event with seven of us in the top ten placing, with 2nd place of the highest for us. Much credit due also to Mary Gifford taking first place in the woman division with 325 miles. Mary is the sister of last year's winner Henry, who was Jr champ two years ago.

Since the list of all the participants beyond the top 10 is yet incomplete; we should get more info and follow up next month.

Jim Rex still cautious of a pulled achilles tendon from last year's Paris-Brest-Paris, chose not to be tempted to ride anyone else's pace only to make it worse. So he rode his share of 310 miles alone, concluding "this was the easiest triple century I've ever done".

AT A CLUB MEETING

HALO OF LOWGEAR SAVIOUR

"IRV WEISMAN, MEET JIM REX. HA HA, JUST KIDDING"
A yellow flash of club jerseys was seen at the June meeting of the New York Cycle Club. They were snapped up at $17 each. And what a bargain. They are made by Theresa Jackson and of an unusually soft acrylic fabric. Sizes range from extra small to extra large (you too can wear an NYCC jersey, Bill Cooper). More will be available at the July meeting, so come prepared with your money. We're sure you won't want to be without one of these handsome jerseys.
