RIDES PROGRAM

GUIDELINES FOR CLUB RIDES

NYCC rides are intended to be friendly group rides: we don't like to "drop" or lose anyone. However, leaders should turn back riders whose physical or bicycle condition seems inadequate, or when this is not feasible, those whose riding ability early on in a ride seems inadequate. Our leaders are truly reluctant to do this; so please cooperate with them.

In choosing a ride note the estimated "cruising speed," listed below. This number approximates the speed of a typical rider of the indicated category while moving along a flat road with no wind or other adverse riding conditions. Average riding speed will show the effects of varying terrain.

1) Select rides within your capability. Avoid downgrading the ride for your fellow riders and stressing yourself by trying to keep up, or conversely, demanding a faster pace than advertised.
2) AA, A+, and most A rides generally maintain pacelines. If you are unfamiliar with paceline riding be prepared to learn.
3) Be on time or a bit early. Rides will leave promptly.
4) Have your bike in good condition: both brakes working; properly inflated tires, adjusted derailleurs, no loose parts.
5) Bring water, snacks, spare tubes, patch kits, pump and lights if the ride will begin or end in the dark.
6) Eat a good breakfast.

* New members can assess their probable riding class by riding 4 full laps around Central Park, at a pace which feels comfortable to them, and comparing their times to those listed above. Ride with other cyclists or runners; the park can be dangerous at its northern end. Central Park Boathouse phone numbers are: 656-9521; 744-9811; 744-9814. The Boathouse is located inside the Park, along the East Drive, near 72nd St.

FORMERLY MARKED CLUB ROUTE RIDE. Leader: Martha Rome (718-858-9142) From Ft. Washington Ave. 176th St. ("A" train to 175th St.). Join us as we re-discover the club route in Bergen and Hackensack Counties. See how many of the old arrows you can find. Indoor lunch stop. Rain cancels.

NORTH COUNTRY CARTOP RIDE. Leader: Marsha Taggart (914-962-5991, eve.) From Yorktown Heights town hall. Cartop to Yorktown Heights on the Taconic; turn right off Underhill Avenue exit. The town hall is on the right after the first traffic light. Driving time from NYC: 1 hr. or less. We will ride at an 11 mph pace in the scenic north country. Lunch--picnic if warm and dinner if cool. 75% chance of rain cancels.
PIERMON, NY. Leader: John Mulcare (718-672-5272) From the NJ side of the GWB ("A" train to 175 St.; bike walkers should use the path on the south side of the bridge, allowing about 20-25 min. more than their stair-climbing, bike-riding counterparts on the north side). We'll have brunch at the Turning Point Restaurant, so don't forget to bring a lock. On the return trip, we'll scale the Palisades in as many non-back-booking stages as your hill-hating leader can stumble upon. See note at end of Riders Listings for "C" Ride Recommendations and Cancellation Conditions.

BEDFORD REVISITED. Leader: Max Vinckers (718-728-7179) Our annual disturbance of the peace in the Hickory Kingdom and points north. As usual, the leaves will be gaily pre-painted for the participants' amusement and admiration. Starting from the Boathouse with French Toast (all right, Claire, waffles!) in White Plains and delli in Briarcliff Manor. Rain cancels.

NORTH SHORE HILL-CLIMBER. Leader: Brian McCaffrey (718-634-1742) From the Statue of Civic Virtue ("E" or "F" train to Kew Gardens/Union Turnpike). This is a serious and beautiful North Shore hill-climbing ride for "B" riders who would like to improve their skills. The route was developed by Alinda Barth, whose specialty is hill-climbing. We hope to have some "A" riders in attendance to help us make it our specialty too. Call for more details.

GET FIT AND RIDE. Leader: Bruce Scher (718-699-4568) From Prospect Park, Grand Army Plaza, opp. library. We all know we have great aerobic endurance as bicycle riders, but are we really fit? We'll do some easy outdoor stretching in Prospect Park before riding to Long Beach. After lunch we'll do some beginner-level upper body strength exercises on the boardwalk, before riding back to Brooklyn. Bring a bath-size towel for the workout.

GREAT NECK, L.I. Leader: John Mulcare (718-672-5272) From 179th St. A Hillsides, Queens (last stop on "E" or "F" train). There will be a lunch stop in one of our favorite parks. See note at end of Riders Listings for "C" Ride Recommendations and Cancellation Conditions.

FALL FOLIAGE WEEKEND. Leaders: Stu Greenberg (212-534-2935) & Martha Ramos (718-438-9142). Join us for the Columbus Day weekend in the scenic western Catskills. The NYCC has participated in this weekend for over a decade -- it's a "can't miss" weekend! First class vistas and a lot of good revelry at a darn good price. The deadline for reservations was Sept. 25. No guarantees that space is still available, but call Stu or Martha if you're interested.

TIME TRIALS. Leader: Steve Sklar (212-245-3245) From the Boathouse. Because of the recent mugging incidents on the George Washington Bridge, we'll travel to and over the bridge as a group rather than meet on the NJ side. This time trial can be competitive or low key, as you wish. Reading of Eddy B's book is not a prerequisite. Precip. at start time cancels.

QUICKIE RIDE TO FRANKLIN LAKES. Leader: Doug Blackburn (212-685-9945) From the Boathouse. Continuation of the "Quickie" series. Prompt departure; return by 1 PM. Rain, snow cancels.

DIAL-A-"B"-RIDE. Leader: Sara Flowers (718-544-9168, h.; 212-921-4319, of.). I may or may not be riding, but call if you are interested and I will put you in touch with others who wish to ride.

LIBERTY PARK, NJ. Leader: John Mulcare (718-672-5272) Meet at the Coliseum (Broadway & 60th St.) at 9:30 AM or at the Staten Island ferry at 10:20 AM for a ride on Richmond Terrace, the Bayonne Bridge, Kennedy Boulevard, etc. We'll stop at a deli before proceeding to the Park for lunch. The return trip will be via the Bayonne Bridge, etc. (See the Oct. 25 C+C ride which will include a longer return trip. Why don't you C+C riders try both?) See note at end of Riders Listings for "C" Ride Recommendations and Cancellation Conditions.

BEAR MOUNTAIN COLORS. Leader: Bob Treatman (212-996-0358) From the Boathouse. Let's look at the leaves at their brightest on the hillsides of South Mountain Road and Perkins Drive. Come on -- you're still in shape from the summer! Snow or heavy rain cancels.

AUTUMN ON LONG ISLAND. Leader: Sara Flowers (718-544-9168, h.; 212-921-4319, of.) From the Statue of Civic Virtue ("E" or "F" train to Kew Gardens/Union Turnpike). Let's hope for a glorious autumn day -- but take the best we can get. Destination and mileage will be determined by conditions. We will see estates, towns, the sound, everything. Lunch will be in or out as temperature and conditions dictate. Call if you have questions or would like to be part of the planning.

RIVER VIEW PARK, WEST NEW YORK, SUNDAY VERSION. Leader: John Mulcare (718-672-5272). Coney Island and Other Brooklyn Sites. Leader: John Mulcare (718-672-5272). Meet at the
northern end of Prospect Park. (The leader recommends that you use the subway, if necessary,
to get there and avoid the Brooklyn Bridge if the buses on biking through the construction areas

Nov. 21 Morristown/Wildlife Refuge Cartop. Leader: Joe Furman (212-861-5867).

Make no commitments this winter

No, this is not the beginning of a new NYCC advice or astrology column. We just want to
let you know well in advance that the NYCC is going downhill this winter... as well as cross-
country skiing, that is.

That's right, friends, skiing! Many of you have called us at ungodly hours with a hand-
written, scrawled request to toss over your clothes and join the efforts to stay healthy.

This winter we hope to be able to offer day trips upstate and weekend trips to such great
Northeast settings as the Catskills, Adirondacks, Berkshires, Vermont, New Hampshire, and Canada.
We've even toyed around with a cross-country trip to Norway.

Most of these ski trips will be cross-country-oriented, but many of our destinations have
first-class downhill centers nearby. Alpiners are certainly welcome. Transportation, accommodations,
and meals will be included in what we will always try to make a very affordable price
package. And, of course, cross-country skiing activities will be emphasized as well.

You say you've never skied before? Hey -- no problem. Most trips, beginner lessons
will be available -- and as often as possible they'll be taught by our own qualified fellow Club
members. By the way, skiing is great cross-training for cycling (if you really care about that).

So think about it. Look for trip announcements starting in the January newsletter. We may
even have a ski "hot line" phone in December to pull together a crew on short notice if conditions
warrant it. As Mark (Groucho) might have said: "You have nothing to lose but your chain" -- at
least for this winter.

Finally, if you'd like to lead or instruct on a ski trip, please don't be shy. We are
forming an ad hoc Ski Committee and we'd love to have you join us. Listed below, in alphabetical
order, are some of the participants. Feel free to give any of them a call for more information
or to plan a trip: Debbie hell (212-864-5133); Sara Flowers (718-544-9168); Stu Greenberg
(212-534-2935); Anne Hintermeister (212-628-0968); Brian McCaffrey (718-634-1742); Charles Morris
(212-477-3281); and Mark Paul (718-805-0253).
Toward the middle of Stanley Kubrick's sometimes brilliant, sometimes baffling Full Metal Jacket (after seeing Platoon a friend commented, "It was a confusing movie... then again, it was a confusing war") on the night of the Tet offensive, a well broken-in Marine talks to the new base arrivals about the changes on Guam through after months of shouting and being shot at. He chides one of the greenhorn for swaggering about the glory of combat he roughly chides him by citing his lack of experience. "I know you don't, because you haven't got the star".

"The star?", the newcomer asks. "Yeah, the thousand-yard stare. Everyone who's been out there gets it, and you'll get it too".

I know I've run this these into the ground by now, but I'm a solid believer in it: there's nothing like a strong awareness of one's mortality to sharpen the senses. And reflexes.

My sensory development as a cyclist has been more peripheral than longitudinal, based on nearly ten years of riding through and along the crisscrossing asteroid belts of Manhattan traffic, where that which you choose to ignore will make itself known, usually painfully, always with blinding speed. Buckled asphalt, flashes of yellow and white-on-blue shine but in the farthest corner of the eye while the mind analyzes approach/departure speeds, distance, size and destructive potential. Added to these are memorizing traffic light patterns of eleven or so avenues, checking for erratic driving/cycling/walking patterns of others and how that water main break fifty yards ahead will affect your maximum adhesion (mind those manhole covers!) and you'd be hard pressed to disagree when I say that the seasoned city cyclist is -- by necessity -- the most sentient being in all the mobile maelstrom. Between the roar of turbocharged angst and the hard place of frequently self-righteous pedestrians fly of us who, without the benefit or clout of two more wheels and four to eight cylinders to move them with, aren't at all taken seriously until a pedestrian is hit (jaywalking is assumed to be a birthright in New York) or a cyclist is mowed down ("Really! I DIDN'T SEE HIM!").

The next time you're on the street during rush hour(s), check out the people around you. I mean really check 'em out. More likely than not, most of them are quite unaware of almost all around them at the moment. The mind's eye is on home, blinders fixed tightly, and nothing smaller or quieter than a Harley Sportster with straight pipes will snap them out of it (well, maybe with Rock Hudson's ghost riding...)

When it comes down to street awareness, we're doing most of the serious homework, because to do otherwise is potentially lethal, and often the difference really is a matter of yards.

LINKNOTES: CRASS CONSCIOUSNESS: In a classic example of second-class treatment from third-class stewardship, the Koch administration has decreed that bicycle traffic on Fifth, Madison and Park avenues is verboten during "peak hours". In an apparent appeal to the carriage trade, I guess the sight of a $300 bike out-running all those $40,000+ Jags, Mercs, Audis and Bimmers at rush hour was more than some financially influential people (nudge-nudge, wink-wink) could stand. Judging from Hizzoner's recent state of health, he could benefit from pedalling something besides influence... PORT OF NO RETURN: Those of you who would like to let the Port Authority know just how bad an idea their North-on-the-Bridge-Only rule is should join forces with a group that's been looking out for us for some time now: Transportation Alternatives has, as a group, been going it alone as far as defending the rights of cyclists and other non-auto-matized persons for some time now, and now is the time to show a strength of numbers. Since that seems to be the only thing the proverbial powers-that-be will respond to. Their number is 212-265-0971. When you need all the friends you can get, it helps to know just who your friends are.

GEAR RATIO: The relationship of how much you spend on your cycling wardrobe to what you spend on the rest of your clothing.

KEVLAR has been used in bicycle tires and frames (Kestrel). Now Pearl Izumi is introducing a line of Kevlar-equipped cycling clothing. This protection against road rash comes at a high price: $120 for the lighter weight and $150 for the foam-padded shorts. But then, what does a trip to the emergency room cost? Pearl Izumi is also working on Kevlar-equipped knee pads, elbow pads, and gloves - great for cleaning your tires without tearing the palm of the glove.
**ROUTE OF THE MONTH**

Debbie Bell has organized several cartop rides through Monmouth County for the NYCC, leaving from the parking lot of Holmdel Park near the Garden State Parkway. Fall is a wonderful time to ride there. The route has turns galore, but the reward is a ride through lovely countryside, not a lot of hills. Because it is so rural, food is not easy to come by, so stock up on munchies, water, and perhaps even carry your lunch.

- **x**/**x**/**x** - total cumulative mileage/mileage from last turn
- **BR/RL** - bear right/bear left
- **S** = straight
- **SS** = stop sign

**Note:** Some road signs may be missing at intersections!

FOR NEWER MEMBERS AND TOURING CYCLISTS - IRV WEISMAN

At the present time NYCC membership is at an all-time high, with many new members just learning of the limitless possibilities of cycling. I, personally, love sharing vicariously in the bicycle adventures of my fellow members through slides of their trips. Last year I arranged for a delightful private showing of Karen Sauter's slide show of her month long solo trip down the west coast. Club members enjoyed Elly Spangenberg's slide show of her tour across America. Her account was full of human interest and offered scenery, both beautiful and desolate, bits of American, and included her ceremonial pouring of Atlantic waters into the Pacific.

I know there are other members who have slides or their travels to share with club members. We also have members, somewhat new to the sport, who want to learn more about cycling-who want technical information on frame fit, gearing, pedalling, clothing, training for fitness, nutrition, etc.

If you are interested in any of these subjects and would like to attend meetings, especially during the winter months, send me a note indicating your interests. I will try to schedule meetings in private homes or at O'Hara's. These meetings will supplement, not supplant, the regular monthly meetings. The topics are: 1) Slide shows of bike tours (do you have any to show?) 2) Fitness and training (especially during the winter months) 3) Bicycle gearing - its whys and wherefore 4) Effective cycling techniques 5) Winter cycling apparel 6) Would you like to present a topic or lead a discussion? 7) Would you be willing to meet on a Sunday afternoon during the winter? Can you host a group of crazy cyclists at your home?

Send your cards or letters to: Irv Weisman Box 97 Kingsbridge Bronx N.Y. 10463 (212) 562-7298

Mayor Edward L. Koch
City Hall
New York, N.Y. 10007

Dear Mayor Koch:

I am taking this opportunity to express my dismay at the actions of your administration concerning the July 22nd announcement of a weekday ban of bicycles from Park, Madison and Fifth Avenues. On behalf of the New York Cycle Club, the largest bicycle club in the New York Metropolitan Area, I find this action to be a capricious and unwarranted misuse of the authority entrusted to you.

The New York Cycle Club, which has been on the city scene for over 50 years, has always been supportive of responsible cycling. While I recognize the real problem of unsafe bicycle operators on city streets, they do not represent the majority of city cyclists, a fact that is upheld by your own police department statistics. To ban an entire form of transportation because of the reckless actions of a few is an excessive and ill conceived solution.

Your actions represent a careless attempt to avoid engaging in a meaningful effort to solve the midtown traffic mess that faces this city, and as you know, is growing. Cyclists represent only one element of that transportation picture. If we follow the "logic" of your actions at the news conference, then why not ban cars from those same avenues? Cars are involved in more accidents, they pollute, congest and result in a greater number of fatalities than do bicycles.

It would appear that faced with mushrooming traffic problems and the inability of the police to enforce the existing laws the administration has opted for a public relations approach. One that is comparable to rearranging the deck chairs on the sinking Titanic. Why chance engaging in an action that will only increase the already high level of antagonism existing on city streets? It also promotes continued mistrust of the administration's intentions toward the general cycling community.

I urge you to reconsider your actions of July 22nd and to rescind the bicycle ban. There are better alternatives to controlling the problem of reckless cyclists. The bicycle community would be willing to help the city find those alternatives and promote them within the cycling organizations.

Your thoughtful consideration of this issue will be greatly appreciated.

Sincerely,

Minites...

3 August 1987  NEW YORK CYCLE CLUB BOARD MEETING  O'Hara's Restaurant  7:45 p.m. - 8:45 p.m.

The June and July minutes were approved.

Carol reported that newsletters for August were mailed a few days late because of problems with the printer.

Listing the first rides of a new month in the previous newsletter solves most of the problem, but researching a new printer will be done as time allows.

Bike Ban: Ed Rudetsky is our official representative to ban the ban and is authorized to spend up to $100 (total) at his discretion. Motion passed. There will be major ride protests on August 12th and 19th beginning at Houston Street and 8th Avenue at 6:00 p.m.

Steve will solicit safe notices from regional bike shops to include selected information in his "Most Toys" column.

Carol will try to get cue sheets from club members to add a "Ride of the Month" column in the newsletter.

Lee will carry his notice of jersey order placement until September.

The board discussed ride categories and pace pushing. Ride leaders are requested to keep their rides at the advertised pace, and to try to keep their rides together.

Two recent bike thefts on two different bridges: both thieves apprehended; neither bike recovered. This month's HANDCUFF AWARD goes to Christy Guzzeta.

Membership is now 705 paid members. We'll print 750 or 800 newsletters for September.

Respectfully submitted,

Steven A. Baron, secretary
