GUIDELINES FOR CLUB RIDES

NYCC rides are friendly group rides by individuals of similar riding abilities. Our leaders are volunteers. In addition to setting the pace and choosing the route, they may require or recommend specific equipment (helmets, locks, etc.) in their ride descriptions. Unless otherwise stated, rain (snow, sleet) at the starting time cancels the ride. Many rides meet at the Boathouse on Central Park’s East Drive, north of 72nd Street.

Please be sure that your bike is in good working condition. Bring a pump, spare tube(s), patch kit, tire irons, water, pocket food, and medical I.D. Optional items include a lock, maps, bike permits for the commuter rail systems, and additional tools. Helmets are strongly recommended. Headphones are not.

Club rides generally approximate the speeds and characteristics listed below. You can assess your abilities by riding, at a comfortable pace, four laps around Central Park. The northern end of the park can be dangerous; ride with other cyclists or runners. Be sure to measure the time it takes you to complete the four laps, and not your average speed. In selecting your first club ride, be conservative. Choose an easier ride, and call the leader if you have any questions.

CANDIDATES' STATEMENTS

The ballot appearing in this month's BULLETIN lists the NYCC members running for each club office/Board of Directors position. Some nominees have chosen to write short statements explaining why you should vote for them. These statements follow:

PRESIDENT
You have come to anticipate my behavior as your President. You have grown accustomed to me encouraging participation in Club activities at all levels. You have come to expect that I will lead A rides, B rides, and C rides with people who never led rides before. You have seen me in the middle of places like River Road, spending the day with the many volunteers who helped to reopen it for our use. And on SIG rides, giving my heart and soul so that people have an opportunity to improve their riding skills.

You have come to know that I will be there, involved, caring, giving it my absolute all. And if I am lucky, I will be there again in 1990, a part of the great Board that is the heartbeat of this Club.

Christy Guzzetta

My fellow cyclists:
I am much honored to be nominated to preside over this fine club. I would, of course, feel even more honored were my nomination proposed by someone other than a court jester, but one gets what one gets. I solemnly swear to do what I can, if elected, and not to bear any grudges, if voted down. In either case, I assure you, you will get exactly what you get. Arriba l'anerquita!
Maxim Vickers

V.P. RIDES
My first year on the Board has gone by very quickly. I have had a lot of fun volunteering and am gratified that I am able to give something back to the Club. I would love the opportunity to serve as Vice President of Rides for another year.

Simone Smith

CHARLIE FOR 1990 RIDES COORDINATOR
He's a quick learner, and though not yet of service to our Board, brings considerable experience to the post.

1982-85 Secretary Bike Committee A.M.C.
1985-89 Treasurer of same committee

Accomplishments:
Wrote complete set of by-laws for A.M.C.
Tripled available funds for AMC Bikers
Led numerous B & C rides**
Ran bike repair seminars
Liaised with P.A. on Geo. Wash Bridge.

If elected will work to reinforce existing policies—Against any radical changes.
**(Almost 95% returned to base)

Charlie Morris

SECRETARY
Having spent this past year rehabilititating a sore knee, I'd like to mark my return to club activities by serving as secretary.
Vote for Art: An A rider and an A+ writer.

Art Allgauer

PUBLIC RELATIONS
Why should I be Public Relations Director? My Show Biz background provides me with good training to battle for cycling issues in the public arena. I have been an actor, writer, and standup comedian. My writing training (NYU) specifically qualifies me to communicate in print on issues of concern to the NYCC. My comedic talents could be invaluable in bringing satire and ridicule to bear on the more ludicrous aspects of public policy re: cycling. Politically, I am liberal on transportation issues. I support the more realistic aspects of TA's Auto-Free New York campaign, like the banning of cars from Central Park at all times, and the implementation of higher tolls for private passenger cars coming into Manhattan. Some of my ideas are: printing more bulletins to use aggressively in bike shops/promotions; better business cards; a new club jersey and helmet cover; discounts with bike shops in return for free advertising in the bulletin, and developing a club bike rally or bike-a-thon in Central and Prospect Park. And, of course, media coverage!

CARLOS CARDONA

My motivation in pursuing the office of P.R. Director is to both give back and become more actively involved in the life of our cycle club. My thrusts would be to increase our visibility in NYC as both a recreational vehicle and lobbying force for cyclists, and to increase our knowledge and participation in local and national cycling events and rides. On a more personal level, my present job position as a social worker/manager would hopefully assist me in having the needed skills to assess systems and deal with groups in order to best enhance and promote our cycling interests.

Janet Klutch

B-RIDE COORDINATOR
Leading a B ride is easy! Find a route you like, list it in the bulletin, show up and ride! You don't have to ride first or know how to fix bikes or do CPR. It does help to know the rest and lunch stops. If elected B Rides Coordinator I will encourage the development of new leaders by having them co-lead with established leaders, help to develop new routes and offer all the assistance I can to the people I hound, badger and bully into leading us at 11 to 14 miles per hour (not incl. stops).

MEMBERSHIP

The Di-rec/tor, n., of Mem/ber-ship, n. (ac-
cording to NYC by-Laws) promotes membership, responds to inquiries, receives applications and dues payments and maintains roster of club members. I would like that job! These past two years as Secretary have been both gratifying and fun and has afforded me the chance to give something back to the club. I would like to be able to continue giving.

Arlene Ellner

If elected, I will make an effort to help new members participate and feel comfortable in the club by contacting them a few weeks after joining for their questions, problems, and suggestions. I will also set aside a table at meetings for new members, with experienced people spaced around it, so that the first timers don't feel left out during the dinner and program. And I will call people who don't renew their memberships to find out why.

Jeremy Herman

A-RIDES COORDINATOR

Although I've only been a club member for a year, I've come to realize how much fun it is, how much I love the rides, and how much I'd like to be a board member. So, vote for me, Lisa Halle, to be your new A-rides coordinator.

Lisa Halle

My name is Bob Moulder and I'm a candidate for A Rides Coordinator. Although I've been with the NYCC for a relatively short time, I've had the opportunity to participate in quite a few A rides, ably led by so many of you. I would like to return the favor by serving as your A Rides Coordinator, and would appreciate your vote in the upcoming NYCC elections. Thank you.

Don't worry - if I'm elected A-Rides Coordinator, it does not mean that every A-Ride will be at least 200 miles long. However, I would like to see more of a variety of A-Rides. We have four classes of A-Rides but rarely is there more than one ride each day. This leads to very large groups with lots of stopping and waiting, and is often unsafe. Two rides at different distances and/or classes would eliminate these problems. I will try to have some shorter rides listed during the summer so that people can get home early; not everyone has the time to spend an entire day cycling. I will also try to increase the number of rides going to Putnam, Dutchess and/or Ulster Counties, returning via Metro North. Everyone has enjoyed the extra miles away from NYC without the hassle of returning in traffic.

PRESENT BULLETIN EDITOR DECLINES NOMINATION

I have truly enjoyed being BULLETIN editor. It has been both fun and rewarding. I also owe many thanks to Larry Rubson for generously donating his time and skill to pasting the BULLETIN up.

However, great as it's been, reality intrudes. I was badly injured, with a projected year for recovery, and work is literally piled up on my desk; the BULLETIN is a big demand on my time. I was happy to learn that Clif Kranish had been nominated as editor; it enables me to withdraw with good conscience. I'm sure he will make a great editor - probably better than I. I also think it's best for the club to have an editor who is actively riding and in contact with everyone: I'm on forced leave right now.

I can't wait to get back to riding - soon! Meanwhile, thank you all for making my job such a pleasure, for producing articles and artwork on demand - and I know the same enthusiasm will continue with Clif as editor next year.

Thank you! Janet Kronstadt
1. Every member, including both members of a couple, is eligible to vote.
2. Tear out or photocopy this ballot. Couples should photocopy the ballot so that each submits an individual ballot. One ballot equals one vote. Two people MAY NOT vote on the same ballot.
3. PRINT your name and address on the reverse side. This is for validation purposes and will be removed before the ballot is opened and the votes counted. Sealed ballots will be validated against the roster.

6. Mail the sealed ballot(s) in an envelope to the person designated on the reverse in sufficient time for it(them) to be received before MONDAY, NOVEMBER 6, 1989, or deliver the sealed ballot(s) to that person at the club meeting November 7 by 8 p.m.
7. Ballots will be counted at the November club meeting and the results announced at that meeting and published in the December 1989 BULLETIN.

If elected, I will make an effort to help new members participate and feel comfortable in the club by contacting them a few weeks after joining for their questions, problems, and suggestions. I will also set aside a table at meetings for new members, with experienced people spaced around it, so that the first timers don't feel left out during the dinner and program. And I will call people who don't renew their memberships to find out why.

A-RIDES COORDINATOR

Although I've only been a club member for a year, I've come to realize how much fun it is, how much I love the rides, and how much I'd like to be a board member. So, vote for me, Lisa Halle, to be your new A-rides coordinator.

Lisa Halle

My name is Bob Moulden and I'm a candidate for A Rides Coordinator. Although I've been with the NYCC for a relatively short time, I've had the opportunity to participate in quite a few A rides, ably led by so many of you. I would like to return the favor by serving as your A Rides Coordinator, and would appreciate your vote in the upcoming NYCC elections. Thank you.

Don't worry - if I'm elected A-Rides Coordinator, it does not mean that every A-Ride will be at least 200 miles long. However, I would like to see more of a variety of A-Rides. We have four classes of A-Rides but rarely is there more than one ride each day. This leads to very large groups with lots of stopping and waiting, and is often unsafe. Two rides at different distances and/or classes would eliminate these problems. I will try to have some shorter rides listed during the summer so that people can get home early: not everyone has the time to spend an entire day cycling. I will also try to increase the number of rides going to Putnam, Dutchess and/or Ulster Counties, returning via Metro North. Everyone has enjoyed the extra miles away from NYC without the hassle of returning in traffic.

PRESENT BULLETIN EDITOR DECLINES NOMINATION

I have truly enjoyed being BULLETIN editor. It has been both fun and rewarding. I also owe many thanks to Larry Hobson for generously donating his time and skill to pasting the BULLETIN up.

However, great as it's been, reality intrudes. I was badly injured, with a projected year for recovery, and work is literally piled up on my desk; the BULLETIN is a big demand on my time. I was happy to learn that Cliff Kranish had been nominated as editor; it enables me to withdraw with good conscience. I'm sure he will make a great editor - probably better than I. I also think it's best for the club to have an editor who is actively riding and in contact with everyone: I'm on forced leave right now.

I can't wait to get back to riding soon! Meanwhile, thank you all for making my job such a pleasure, for producing articles and artwork on demand - and I know the same enthusiasm will continue with Cliff as editor next year.

Thank you! Janet Kronstadt

I’ve been a member of the NYCC for the past year and a half and I’ve come to anticipate each month’s issue of The Bulletin with the many choices of rides for the coming weekends. I believe I can make the Bulletin even better, by expanding its scope to include more information about cycling in and out of New York.

There is already good coverage of racing and mechanics. I would balance it with more information about bicycle touring. Members who have taken bicycle vacations would be invited to share their experiences with the club.

An “Out-of-Bounds” section could list major cycling events, including rides like TOSRV and rallies like GEAR. I’d also like to exchange articles with other cycle clubs.

The Bulletin can be more than just a rides list. I would like your support to put out a newsletter that reflects the membership of the NYCC.

Clif Kranish

MEMBERSHIP
The Di-rec/tor, n, of Mem/ber-ship, n. (ac-
cording to NYCC by-Laws) promotes membership, responds to inquiries, receives applications and dues payments and maintains roster of club members. I would like that job!

These past two years as Secretary have been both gratifying and fun and has afforded me the chance to give something back to the club. I would like to be able to continue giving.

climbs. The first climb will be about five or six hours. The second climb will be in the eight-hour range. The third will be around 12 hours. The actual length of each climb will be determined by snow and ice conditions as well as by the strength of the group. Then we will go into a series of one-day climbs over a long weekend in February; finally, those who remain interested and committed will join us for an overnight trip to the high peaks of the Adirondacks.

While the primary thrust of the program is to have a good time in the company of one another, I will stress safety in all procedures, from wearing proper clothing through proper foot control and stability in the mountains. Those of you interested in joining me for some adventure should give me a call to learn the dates and meeting locations, and to receive planning information: 516/631-3400 (w): 718/476-0088 (h).

MINUTES

NYCC BOARD MEETING, 5 SEPTEMBER, 1989, O'HARA'S
Present: Hannah Holland, Martha Ramos, Brian
McGaffrey, Beth Herman
Absent: Simone Smith, Janet Kronstadt, Arlene
Eller

July minutes approved.

Debbie circulated the 3rd Quarter financial
report. She projected a fiscal year deficit of
$2,500 as a result of no increase in member-
ship levels from 1988, insurance costs and
higher costs from larger BULLETINS. Therefore,
dues need to be increased which requires a
by-laws amendment agreed upon by 2/3 of the
voting membership.

A proposal was made to increase dues for
individual memberships by $5.00 (to $17.00) and
couple memberships by $7.00 (to $22.00). It
was unanimously approved.

Martha announced TA's East Coast Bicycle
Conference, 13-15 October, and proposed
sending a letter to the New Jersey Transit
requesting that bicycles be allowed on their
public transportation vehicles.

Richard reviewed upcoming programs.
Possible new formats for the Christmas party
were discussed.

Holly thanked Ken for the use of his
office computers to prepare the membership
roster. She suggested splitting the
Membership board position between two
people.

Meeting adjourned 1:08 a.m.

Respectfully submitted,

Bob Moulder

If you'd like to read an excellent series of articles containing much objective information about clincher bicycle tire construction, and scientific performance evaluation of clinchers, consult the June '89 issue of BICYCLING magazine, which also contains a survey of 631 readers who "rated the rubber." If you'll bear with me for about three minutes of reading time, I'll tell you about my non-scientific, highly subjective (at this moment) test for quickly judging tire performance.

The performance of clinchers is so good these days that droves of tubular tire riders have chucked their sew-ups for these Kevlar wonders, including some professional racers (for a substantial endorsement fee, probably, but they are staking their race results on them). You've probably tried several brands yourself and have formed your own opinions based on objective and non-objective factors. The objective parameters are fairly easy to measure: 1) tread life (see, it lasted 8,764 miles!); 2) puncture resistance (Hmm, nine flats the first week); and 3) ease of mounting (it either was or wasn't a bitch to put on). The non-objective performance factor is harder to define.

At great risk of insulting the knowledgeable editors of BICYCLING by vastly oversimplifying the results of their meticulous research, let me say that their conclusion seems to be that the tires with the lowest rolling resistance/smoothest ride/best cornering adhesion (simply put, "best performance"), are those with thin, light casings that flex easily, combined with a thin, light tube and proper inflation.

Having ridden several brands/models of tires over the past couple of years (12 at last count), and having pondered from time to time why I liked one and hated another, it finally occurred to me that the ones I came to favor were, by golly, those with thin casings. And I finally figured out a simple test to determine in the first mile whether I'll like a tire or not. It works for me. See if it works for you.

It's called the "Rock-n-Roll Squish Test," and it goes like this: find a nice little hill (for example, 110th Street hill, with police escort), and with the tire in question mounted on your front wheel, climb the hill standing up in a moderate gear, say 39x15 or 42x17, slightly exaggerating the natural side-to-side rocking motion. Now, as you climb, watch the front tire where it contacts the road. As you put your full weight into the pedal stroke, does the tire flatten out a bit, not at all, or a lot? As I said above, this test is highly subjective because it depends on the tire tested, rider/bicycle weight, inflation pressure, and tire/rim width, but it has been my experience that those tires which flex the most seem to have the best performance" and, surprisingly, seem to get fewer snakebite-type pinch flats.

To develop a feel for this subjective performance evaluation, you'll need to have had experience with several brands of tires with different kinds of construction, but I think you, too, will notice that the casing flexibility of a tire is perhaps the most critical performance factor. Unfortunately, thin casings are vulnerable to punctures and sidewall cuts, a serious problem in these parts, and so the best performance tire is probably not the best all-around tire. There are, however, some tires on the market now which combine relatively thin casings with Kevlar belts under the tread for puncture resistance, which also fare nicely in the "squish" test, such as the Specialized Turbo S/K4, among others. I was surprised to find that the tire which performs best for me, and does well in my squish test, is the Performance Nova EX/K, which goes to show that the most expensive may not necessarily be the best. One warning about the Nova Ex/Ks, though: These are extremely difficult to mount.

I'd like to hear your opinion about this squish test. Please contact me at club meetings and let me know if it does or does not work for you.

I want to thank you all, albeit belatedly, for the wonderful and touching farewell that you gave me. NYCC helped me through the hardest period of my life, and I will be forever grateful for your love and support. The hardest part for me about leaving New York was leaving the club and all of you who have become family to me. Life in La-La Land has been very hectic so far. I have done some riding with a local club, the Foothills Cycle Club, and plan to investigate some other clubs. The biking out here is great, and there are a lot of cyclists. But I miss the NYCC. Thank you for everything you have given me, and please give me a call when you are in L.A.

All the best,
Robert Pollock
Safety tip of the month: DRESS FOR WARMTH

Wear materials that breathe, wick sweat away from the body and hold warmth. Avoid cotton. Polypro wicks well and is a good first layer, wool or acrylic provide all three qualities. Other synthetic materials can be used for a good second layer. Use additional layers for warmth and to cut the wind.

Getting chilled will affect your judgment and ability to keep up; besides making for a miserable ride.

PRESIDENT'S MESSAGE

Christy Guzzetta

Who is going to be our next B-Rides Coordinator? And our new Membership Director? Who
will serve as our Secretary in the coming year? Gosh - what is our new Board of Directors
going to look like as we head into this brand new decade?
I wonder - who are they going to be? Only YOU can determine this - and only by voting.
Many people have stepped forward this year with energy, enthusiasm and ideas. We
have contested elections for many of the positions. Let's take advantage of these contests,
let's show our support, our thanks. LET'S VOTE!
Make a choice, pick a candidate, talk with your friends, convince them to vote.
Let's make the ballot-counter's job tough this year. Let's all vote.

CYCLE OREGON II
Janet Klutch

Five NYCC members (Janet Klutch, Alisa Rashish, Alan Resnick, Barry Shapiro and
Simone Smith) successfully completed the
460-mile/7-day "Tour de Oregon" from Portland
to Ashland, with 1,900 other cyclists. Ter-
rain included mountain passes and climbs
through the Cascades, countless timber forests,
desert, volcanic lava fields and Indian reserva-
tion land. Food was provided by local
towns and districts; occasionally it ran out
due to the voracious appetites of hungry
riders. It was not uncommon for locals to
provide emergency pasta rations from their
own cupboards until the last remaining

pasta on store shelves could be brought in.
People from 29 states were transformed
into one endless human train of cyclists.
Support and repair vans were provided by
a local bike store chain, water barrels were
carried by the National Guard, and two
double-trailer trucks carried 1,900 pieces
of luggage. Accommodations were motels/
condos, with two mandatory nights of camping
in cow pastures, the result a sort of
cyclists' Woodstock. Local talents provided
nightly music and dance for aching bodies (not
entirely soothed at the massage tables... )
A ride worth remembering!
