"The brochure said, 'Join us for a vigorous ride followed by a delicious Thanksgiving feast on The Planet of the Turkeys.' I guess I didn't read the fine print."

NYCC rides are friendly group rides by people of similar riding abilities. A volunteer leader plans the route and maintains the listed pace (e.g. B15 - see chart).

**RIDE STYLE** indicates the type of riding. See chart left.

**CRUISING SPEED** indicates the ride’s speed on flat terrain.

Over rolling terrain, **AVERAGE RIDING SPEED** is 3 mph less than cruising speed; **OVERALL SPEED**, including stops, is about 6 mph less than cruising speed. These speeds will vary plus or minus 1 mph according to terrain.

**SELF-TEST:** Assess your personal cruising speed by riding 4 laps (24.06 miles) around Central Park at a comfortable pace and matching your time with the chart at left. NOTE: Riding one lap will give you a false assessment. *(The northern end of the park can be dangerous; ride with other cyclists.)*

**YOUR FIRST NYCC RIDE:** For your own enjoyment, be conservative. Choose a ride easier and shorter than you think you can ultimately handle. You won’t want to struggle to keep up, nor make new friends by causing them to wait for you. It’s a good idea to call the leader a day or so before the ride, and to introduce yourself when signing up at the start.

**BEFORE THE RIDE:** Check that your bike is in good riding condition: brakes and derailleurs working well, tires pumped to the pressure specified on the sidewalk. Eat breakfast.

**BRING:** spare tube water SUGGESTED: lock patch kit snacks medical ID rail pass tire levers map pump emergency phone # money

Leaders may specify other items in their ride listings.

**WEAR YOUR HELMET! NO HEADPHONES.**

**WEEKEND EVENTS:** These are usually in hilly country. You should be able to cruise at 14 mph, otherwise you may not find any groups to ride with.

**Bike Trains**

Saturdays and Sundays from April 16 through November 30, MetroNorth has scheduled specific trains to/from Grand Central Station to accommodate large groups of cyclists.

Bike passes are always required. There are no Bike Trains on holidaw weekends. Refer to roster for restrictions which apply at other times. If you are leading a ride and absolutely require a Bike Train at another time, you must call NYCC’s MetroNorth liaison, Jeff Vogel at (718)275-6978 to advance in try to arrange another train for your ride.

Anarchists can let the ride just happen. Communists will ensure that everyone does their share of the work by maintaining a rotating paceline. Dictators can try dictating the pace to Cuba. If we get caught with illegal tapes, we'll be resigned to going to Park Ridge. Those who would like to fillbuster the issue can sit on the hill all day.

From the Boathouse

November 1, 1994
CAVEAT CYCLISTS: Recently we have heard several horror stories about confrontations between cyclists and local police authorities. Most of them occurred in Bergen and Rockland Counties, but no matter where you may have a confrontation with a police officer these suggestions should be followed.

If you break or fail to observe traffic rules and regulations a police officer may give you a summons or a ticket. Accept it! Do not argue – repeat – do not argue with the police officer. Save your arguments, defenses, excuses, whatever for your day or evening in court – to which you are entitled. If you do not have adequate identification with you, then the police officer may, at his or her discretion, arrest you and bring you to a police station.

Now, what is adequate identification? A valid drivers license, especially with your photograph on it, will generally be sufficient, but a credit card which does not have your address and your photograph will be of doubtful utility in this situation. You don’t have a drivers license? Well, the NYS Department of Motor Vehicles will issue you a photo ID with your address, etc. and this should do the trick.

One other item of consequence – some cyclists, upon failing to satisfy police officers demand for proper identification, have been threatened with confiscation of their bicycles. No way! The Constitution protects you here – tell the officer, quietly and firmly, that the Constitution of the United States prohibits unlawful searches and seizures. If the officer insists upon confiscating then it is Caveat Officer, and your attorney will have a ball with your law suit.

Thanks and many thanks to Christy Guzzetta for organizing the third annual Su Casa Columbus Day Weekend, and thanks and many thanks to Jeff Vogel for planning the ride routes. We understand that a great time was had by all who attended.

The New York Cycle Club extends its sincere condolences to the New York Road Runners Club and the friends and family of the late Fred Lebow, who died on October 9. Fred did more for sport for New York than anyone else in the past twenty years. He was a friend of the New York Cycle Club, and it was a pleasure to deal with him on matters of common interest. Like all of New York we shall miss him!

See you on the road!

Geo Carl Kaplan

Blowouts

With all the weddings last month, somehow I missed one. Elizabeth Emery and Evan Wachs were married on Saturday, October 22nd. The only question is - What bike race are they going to do for their honeymoon?! Congratulations!

Here’s the late breaking news about a mixed - cultural wedding. NYCC member/tourist/recreational cyclist Dan Schwartzman (Sorry, Dan, one race in 1990 doesn’t make you a racer) announced his engagement to CRCA racer Julie Nives. Where and how did Dan propose and give Julie the ring? On the bike, of course!

And how did Ellen Richard calm her nerves before her wedding? With two laps of the Park with Carolyn White.

Congratulations to Catherine Chatham (I’ll announce her wedding to Craig Spiegel next month) for another great season of racing and being picked up by a new team. She’ll be racing with, and against, the best women in the country as part of the World TEAM next year.

Belated best wishes and congratulations to Jeanne Hartnett who competed in the Hawaii Ironman last month. I’m sure we’ll have a great report next month.

And good luck to our NYCC Marathon competitors, Charlie Katz, Liane Montesa and Kevin Mulvenna. Let’s all join Steve and Caryl Baron’s ride to cheer on our running friends. It’s too bad we can’t root for Nick Pisculli too, but he’s going to Washington for the Marine Corp Marathon. Good luck to all of you.

Our junior septuagenarian, Irv Weisman, celebrated his “71 (miles) for 71 (years)” ride in the company of Louis Bernardinucci (merely 77 years old) and his 2 speed bike. Jim Babbitt who came out to give Irv some pointers on hill climbing out of the saddle (but Irv insists on using his low gears instead); Douglas Ricardi, who detoured the ride to his parents’ home near the route for a birthday celebration with cake and demitasse; Ed Sobin who recently suffered the shock of becoming 40; and Phil Liben who is always looking for different routes. Both septuagenarians survived fine, but Louis was heard to mutter, “next time, more low gears.” Irv, we can’t wait for the century ride in 2023.

And finally, the Su Casa report - phenomenal riding and fall foliage at its finest. There were leaves to match the color of any cycling jersey and nary a car in sight. One of the highlights of the Columbus Day Weekend was the volleyball game between the NYCC and the Su Casa regulars. The bet was if Su Casa won they would get our bikes. If the NYCC won, the Su Casans would actually have to ride the bikes. Allison Holden, Conrad and Judy Meyer, Dave Younglove, Rich Borow and Steve Britz came through for us and we were able to keep our bikes. Of course we had an unfair advantage in volleyball as Conrad and Judy (yes) lived in California for years. Other highlights included Mike Delillo, Reyna Franco, Amy Hanowitz and Liane Montesa scrambling in the Gunks. Mostly they were scrambling to avoid the park police as no one had paid an entry fee. Mike is still looking over his shoulder. The only time Tony Nappi got off the dance floor was to play the drums. He was certainly the hit of the party. The marathon doubles Ping Pong tournament was won by Manfred Kuechler and Steve Britz over Charlie Katz and Jeff Vogel. Jeff is still trying to figure out which way the ball will bounce when it comes off Manfred’s paddle. Amy Hanowitz’ fish story keeps getting bigger and bigger. Supposedly the fish was on the road. If it was a Land Shark or a Barracuda we would understand. And thank you Richard Kixmiller for taking a group to your friend’s Ukrainian restaurant. Fortunately there were no mountains to climb after the pierogies and potato pancakes. Gabriella Clapp was the latest victim of Christy Guzzetta’s mouse. But don’t worry. Gabriella got even with him. And Dick Goldberg kept his clothes on. On Friday’s ride up to Su Casa Kristl Roberts did her good deed for the day. She’s this month’s Road Hero for rescuing a chipmunk from the jaws of a cat. Unfortunately, Margaret Cipolla ran over a chipmunk later in the weekend. It may have even been the same one. Margaret was alright. The chipmunk wasn’t. So Kristl, you’re also our Road Bozo this month for not protecting your new found little friend for the rest of the weekend!

The First Annual NYCC Century Needs Your Help

We want to make this an event that every Club member can be proud of. The steering committee has met and formed committees to work on various tasks in organizing this event.

But there’s a lot to do between now and next fall. We need help with all aspects, but especially with promotions and publicity, as well as sponsorship procurement. Everyone has the talent to help out, and it would be a great donation to the Club. Please call Geo Kaplan (989-0883) or Jane Kenyon (662-1935) as soon as possible, and join us at the next great Century 1995 planning meeting!
No Tech Tips
Greasy Kid Stuff

After my little side trip last month I figure I'd better dive back into the dirty fingernail and busted knuckle topics that are the mainstay of this column. And I'd better hurry — the November '94 issue of Bicycling magazine came in, but not quite, so I've got a tip I had been pondering for several months but only recently resolved. Let's send this and another tip to the head of the line this month before they become old news.

For whom the cup creaks

Those Shimano sealed-cartridge bearing bottom brackets sure are easy to install — as simple as screwing on a jelly jar lid, with the proper splined tool — but an ugly epidemic of bottom bracket creak has spread coast to coast, infecting a large percentage of these otherwise reliable units.

When I experienced this nerve-wracking creak with a BB-UN70 (the pre-'94 Ultegra version) I removed and reinstalled the unit at least a dozen times, utilizing every trick I knew, with no effect whatever. I put my "worn out" cup-and-spindle BB back in (it just needed a good cleaning and fresh grease, after all) and tossed the gleaming BB-UN70 into my leftover parts box in the closet.

The recent Bicycling magazine (Technical Q&A, p. 44) mentions most of the things I tried, which mainly involve greasing everything within a six foot radius of the bottom bracket and making sure the frame's BB shell faces are perfectly parallel. The magazine's article also passed along a tip from Shimano rep Wayne Stetina. He suggested "putting a non-hardening gasket compound between the inside of the cup and the outer surface of the bottom bracket cartridge... Avoid getting compound on the cup threads, however." When you consider the way these units are designed — with a machine-pressed cup on the fixed (chainring) end of the bearing cartridge and a slide-on plastic (some models are aluminum) adapter cup for the other end — it is obvious that Stetina's treatment is intended for the adapter cup only.

If your Shimano sealed-cartridge BB is creaking, try everything else first, but if your BB still creaks relentlessly, try my tip. I'm fairly sure it will be disavowed by Shimano American Corporation.

Here's the deal: Sometimes the source of the creak is the interface between the bearing cartridge and the machine-pressed, "fixed" cup. Although this cup/cradle is designed not to be disassembled, it is amazingly simple to remove the cup, load it with grease and reinstall, all in about 10 minutes.

Here's how: With your crank puller, remove only — and I mean only — the chainring-side crank arm. Next, using either a Shimano TL-UN72 or Park BB-T2 (recommended) splined BB tool and a large adjustable wrench, unscrew the fixed cup (it's reverse threaded, so turn it clockwise). Glob the inside of the cup with lots of gray (don't use white) waterproof lithium grease, put some on the cup threads and screw the cup back in with the BB-T2. Remove any grease you may have gotten on the spindle tapers, then reinstall the chainring crank arm. (Tool #7: SH-UN72 and PA-BB72, about $10, available from The Third Hand, 916-926-2600.)

HyperGlide away

If you're stuck with one of the original Dura-Ace (DA) 8-speed freehub — the ones with the thread-on small cog instead of the HyperGlide (HG) locking — you know how hard it is to find replacement cogs, and how hard it is to get them to work smoothly with STI shifters. It's easy to turn HyperGlide-ize these hubs by replacing the old freehub body with a lighter version. This is possible since the threads on the main hub body, as well as the axles and bearing cones, are compatible.

The operation isn't cheap, but it's a lot cheaper than a new rear wheel. In addition to tools you already have, you'll need a splined freehub tool (item #SH-FH10, about $12 from The Third Hand) to remove the old freehub, and you might as well get a 10mm hex wrench (item #CH-AW10, about $2) since you'll need to remove the new freehub body sooner or later. (New freehub bodies simply screw into the main hub body, so you don't need a tool for that step.)

DA HG freehub bodies can be obtained from Loose Screws, 503/888-4600 (Stock #SH-3329801, about $58, each). I can't vouch for the compatibility of older Ultegra or 105 freehub bodies and their newer counterparts because I haven't tried them, but if you want to chat with the folks at Loose Screws they can probably tell you. Oh yeah... you'll also have to buy a cog set, but buy that somewhere besides Loose Screws because they sell "by the piece." Ultegra and 105 cog sets work fine with DA freehubs.

To remove the old freehub body, first unscrew the small cog from your old freehub with chain whips, then slide off the remaining cogs. Loosen the locknut and bearing cone on the non-freehub side of the main hub body and pull out the axle and all the bearings from both sides of the hub. Insert the TL-FH10 into the old freehub, grab the tool with your biggest adjustable wrench, then turn it counterclockwise with all your might. You may have to try it a couple more times, but it'll loosen eventually. When it does, finish unscrewing it by hand then install the new freehub body, making sure you have installed the spacer that goes between the freehub body and the main hub body. Clean and regrease the bearings, put the axle back in and readjust the cone/locknut. You might want to readjust your rear derailleur, too, since there may be slight differences (about 1mm by my reckoning) in the gap between the freehub and the main hub body. Make double dog sure to check your derailleur's low limit screw so you don't throw a chain into your spokes and mangle your rear wheel.

Now... Let's go cycling!

Minutes
SPECIAL BOARD MEETING, TUESDAY, AUG 9
Present: Geo Kaplan, Larry Ksiez, Lori Vendinello, C. J. Obregon, Cary Baron, Herb Dershowitz, Jane Kenyon, Mitch Yarvin, Barbara Julich. Absent: Reyna Franco, Steve Britt, Karin Fantus. Geo opened the meeting at 6:48 P.M. Approval of the minutes of the meeting of July 25 was waived. The board reviewed the new ride rules, approved publication by Caryl and approved them. The board approved the sale of a club tee shirt at a price of $10.00. The meeting adjourned at 6:55 P.M.

BOARD MEETING OF THURSDAY, SEPTEMBER 8
Present: Geo Kaplan, C. J. Obregon, Reyna Franco, Cary Baron, Herb Dershowitz, Jane Kenyon, Mitch Yarvin and Barbara Julich. Absent: Lori Vendinello, Larry Ksiez, Steve Britt and Karin Fantus. The minutes of the meeting of July 25, 1994 were accepted.

Jane advised that the tee-shirts would be available at the next membership meeting. The board expressed its thanks to Mike Samuel for designing the tee-shirt.

Geo received approval to return dues to a member who had complained about rides. Geo raised the issue of raising dues. The board reviewed the budget performance, noting that there were some costs that could be controlled. While all the board members felt that a dues increase might be necessary, there was no agreement on an amount.

It was noted the club century would be held on September 17, 1995. The board discussed nomination of officers. The Editor was authorized to get an advertising director to assist. The meeting adjourned at 9:24 P.M. Respectfully Submitted, Conrad J. Obregon, Secretary
Elite Echelons

Perhaps the largest photo The New York Times has ever run of a cyclist and bike appeared on The Arts page October 11. Trouble is, it was hard to make out the cyclist and all but impossible to make out the bike. Maybe that's because it was in black and white. Nah, that's not it; color doesn't help that much. The picture was of Willem de Kooning's painting entitled "Woman and Bicycle." If you want to squint at it yourself, check it out at the Met Museum.

We cyclists who think ourselves an enlightened elite—o, would that we weren't so elite, meaning that there were more of us plying the streets—like to adduce accomplished members of the fraternity. The October 4 Science section of the NYT ran a picture of Dr. Tryoan Brennan of the Harvard School of Public Health. The studied eye notices his POS bike in the background, leaning against his office wall.

A Los Angeles Times front page article promised titillation of a high degree with a headline about gambling and corruption in a bicycle club. Turns out, there is a gambling club in LA County there called The Bicycle Club.

Pedaling the Ether

NYCCer member Charles Komanoff was on the Internet to help us understand the circumstances of the deaths of two cyclists.

Electronic bulletin boards abide by a self-imposed netiquette that rigidly restricts them to their dedicated subject. So when a bike cop stumbled onto a bike racing bulletin board with some cycling comment or question having nothing to do with racing, boy, did he get flamed. "Flamed." That's a BBS term for meaning shit upon. You shouldn't speak to officers the way he was spoken to electronically.

And now this from AOL (America Online). A subscriber with the handle MtBikeDave writes as follows:

"Could someone tell me about Team ONCE? I see their logo with a urinating man, but I don't know what it has to do with their team. Are rolling pit stops their trademark?"

Uh, Dave, I don't mean to be blunt but you are really one stupid schmuck. ONCE is a Spanish association aiding the blind and is the sponsor of one of Spain's two great professional teams. That logo of a "pissing man" you refer to is actually a silhouette of a blind man leaning forward on his cane!

Auto pilot

And now for our regular digression into engine-powered transport.

The only decor in an otherwise completely bare office of the sales director for a San Diego Lexus dealer is a picture of him and his wife on their tandem. His chief salesman joins him in feeling a great deal more passionate about bikes than cars.

There is, in advertising, something referred to as "borrowed interest" and, as offensive as it is to my aesthetics to have cars trade on the healthful, clean, and fun image of cycling to sell their products, an especially dumb use of this is in a current Mazda commercial. What are those cyclists doing in it?

A Honda dealer in San Diego invited listeners to write commercials for his dealership with the promise he would pick one from time to time and run it. The first one was by—and has—a ten year old boy reciting his decidedly very white rap to the effect that he'd like to trade in his bike on a car from the dealer. ...And who says kids are being cheated out of their youth?

Mike Toomey sends in an article from the Wall Street Journal about some entrepreneur's money-making idea—a motorized bicycle. Michael believes he saw it working the Upper West Side a few days later.

A Wal-Mart TV commercial seen in southern California gives lots of air time to Roadmaster bicycles.

Interbike

NYCCer Peter Mezler was seen walking around the Interbike (trade) Show in Anaheim. The sales literature at the BioCleat booth contained a review written of it by NYCCer Moe Slonkin that originally appeared in the sadly defunct local journal InTraffic.

As for the show, get ready for hydraulic and disc brakes on bikes. (Are we not getting farther and farther away from the simplicity of the simple machine that is called the bicycle?) Death in three different forms was on sale. First, there was a clothing company called, are you ready for this?, Body Bags. (Would you be caught dead in one?) Second is the eerie graphic for Louis Garneau, half living face-half skeleton. Third is Vetta which also features a skull topped by a Vetta. Granted, supposedly thousands of years from now, but still....

And...

It had nothing whatsoever to do with cycling, but NYCCer Neal Spitzer had a fine, fine letter to the editor in the Village Voice.

Lisa Halle (is she still in the club?) was pictured in the November issue of Road Bike Action.

Bike racers strike me generally as notoriously uncaring for their merely recreational and commuter brethren. (We are fortunate to have a few noteworthy exceptions in our midst.) Therefore I found it particularly wonderful that former world champion (and club meeting speaker) Mike McCarthy should have shown the interest and taken the time and trouble to attend a meeting seeking to join NY bike messengers, bike racers, and industry forces with TA-types to discuss formation of something akin to a local Cycling Chamber of Commerce.

Ellen Richard showed theatrical flair and media savvy in the favor she gave those attending her wedding reception: a water bottle with an imprint appropriate to the occasion.

And finally this: Howard Turoff sent in an article from the Wall St. Journal (Oct. 6) about a man who ran for the Danish parliament to "lampoon politicians." He promised better weather, the right to be impotent, and tail winds for all Danish cyclists. He was elected.

NYCC 1994 Ballot for Board of Directors

Candidates' Statements

V.P. Programs

Lori Vendinello

I will continue to provide interesting, animated and informative programs on an even wider variety of topics that will appeal to a broad range of club members and will make for even livelier club meetings.

Irv Weisman

In the "olden days" of the '70's (during which time I served as Chair of the first By-Laws Committee and held several offices including President, V.P. Programs, Editor and Treasurer), some of our best programs were when members shared their know-how on riding, technical and touring matters, bicycling adventures, fitness and dietary matters, legal questions, and occasional equipment auctions. I would like to re-emphasize such self-entertainment and knowledge-sharing, utilizing the rich and varied cycling related expertise within the Club itself, in addition to a few outside experts, and thus to encourage increased interaction and camaraderie among our members.

Because the Club's membership is constantly changing and embraces a wide range of bicycling interests, I plan to develop a questionnaire to characterize the current membership and determine its interests in rides, training programs, and monthly program topics so that our Board has a good picture of the total membership's interests and can tailor the programs accordingly.

B Rides Coordinator

Henry Joseph

As B ride Coordinator, I will continue the NYCC tradition of spirited and diverse rides within the B Ride classification.

Gene Vezzani

Cycling is so accommodating that anyone, given time and the proper training, will excel. The only constraints placed upon us are those that we impose.

Let's consider designing our club with the future in mind. What if we set and publish a series of goals for the NYCC for 1995, and then focus our combined energy on achieving those goals.

Instructions

1. Every member, including both members of a couple, is eligible to vote.

2. Tear out or photocopy this ballot. Couples should photocopy a separate ballot for each. One ballot equals one vote. Two people MAY NOT vote on the same ballot.

4. Indicate your choice — one only — for each office on the ballot.

in sufficient time to be received by Monday, November 7th, 1994, or deliver the sealed ballots at the club meeting on Tuesday, November 8th, 1994 by 8:00 PM.

6. Ballots will be counted at the November club meeting and the results announced at that meeting and published in the December bulletin.
